Dear Veronica,

Recently we have had the opportunity to schedule some important training for Custom Powder Systems it has allowed us to develop our leaders and empower them to make decisions that are right for their employees and the company.

Our responsibility is to our company and our employees and training for front line supervisors, managers, directors and owners on their legal responsibilities to our employees can't be overlooked, it is an ethical responsibility not to be taken lightly. We must continually develop their leadership skills and their knowledge base.

Workforce Development has played a key role in providing those development opportunities and you have been available to assist with any need that we have had. We have had the pleasure of promoting many of our employees due to the training you have provided and I thank you for playing a key role in that process. I look forward to working with you in the future.

Best regards,

DeAnn Kraichely
Director of Human Resources
