

Our team approach to *your business solutions.*

THEIR CHALLENGE:

Based on recent findings from an internal safety and health audit, we wanted to take a comprehensive look at health and safety program requirements and identify opportunities for improvement.

CUSTOMIZED SOLUTION:

Use an Industry Expert from CWD to provide an external in-depth safety program review that focused on addressing our internal findings.

THEIR OUTCOMES:

Increased compliance to OSHA requirements, improvements in overall efficiency and understanding of safety programs, and closing any gaps identified internally.

OUR TEAM:

Client: *John Deere Reman*

Front L-R: *Veronica Lowe, CWD Business Manager*

Becky Yeargan, HR Representative

Back L-R: *Cory Balthrop,
Environmental Health & Safety Manager*

Mark Holt, Safety Coordinator
