

Hemodialysis Technician Career Training

Hemodialysis Technicians help patients with end stage renal disease, also known as permanent kidney failure, to receive safe and effective dialysis treatment. It is their duty to ensure high quality care for patients while maintaining professionalism.

The aging population and demand for dialysis treatment continues to exceed the need for trained and certified Hemodialysis Technicians. Average salary is \$23,221 - \$30,918 and may vary depending on location, experience and hours. (bls.gov)
